**STATEMENT OF THE BOARD OF MANAGEMENT' RESPONSIBILITY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

The Board of Management is responsible for the Consolidated financial statements of each financial year which give a true and fair view of the state of affairs of the Company and of results of its operation and its cash flows for the period. In preparing those Consolidated financial statements, The Board of Management is required to:

- Establish and maintain of an internal control system which is determined necessary by The Board of Management and Those charged with governance to ensure the preparation and presentation of Consolidated financial statements;
- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Consolidated financial statements;
- Prepare the Consolidated financial statements on the basis of compliance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the current requirements relevant to preparation and presentation of financial statements;
- Prepare the Consolidated financial statements on going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclosed, with reasonable accuracy at any time, the financial position of Company and to ensure that the accounting records comply with the registered accounting system. It is responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

We, The Board of Management, confirm that the Consolidated Financial Statements give a true and fair view of the financial position at 31 December 2025, its operation results and cash flows in the year 2025 of Company accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to preparation and presentation of Consolidated Financial Statements.

Ho Chi Minh City, 30th January 2026

On behalf of The Board of Management

Chief Executive Officer

**2 . ACCOUNTING SYSTEM AND ACCOUNTING POLICY****2.1 . Accounting period and accounting currency**

Annual accounting period commences from 1 January and ends as at 31 December.

The Company maintains its accounting records in VND.

**2.2 . Accounting Standards and Accounting system***Applicable Accounting Policies*

The Company applies Corporate Accounting System issued under the Circular No. 200/2014/TT-BTC dated 22/12/2014 by the Ministry of Finance, the Circular No. 53/2016/TT-BTC dated 21/03/2016 issued by Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC and the Circular No. 202/2014/TT-BTC dated 22/12/2014 by the Ministry of Finance guiding the preparation and presentation of Consolidated Financial Statements.

*Declaration of compliance with Accounting Standards and Accounting System*

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

**2.3 . Basis for the preparation of Consolidated Financial Statements**

Consolidated Financial Statements are prepared based on consolidating Separate Financial Statements of the Company and Financial Statements of its subsidiaries under its control for the period from 01/01/2025 to 31/12/2025. Control right is achieved when the Company has power to govern the financial and operating policies of invested companies to obtain benefits from their activities.

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Company. If necessary, adjustments are made to the Financial Statements of subsidiaries to ensure the consistency of application of accounting policies among the Company and its subsidiaries.

Balances, main incomes and expenses, including unrealized profits from intra-group transactions are eliminated in full from Consolidated financial statements.

**Non-controlling interests**

Non - controlling interests represents the portion of profit or loss and net assets not held by the owners.

**2.4 . Accounting estimates**

The preparation of Consolidated Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the accounting year.

The estimates and assumptions that have a material impact in the Consolidated Financial Statements include:

- Provision for bad debts;
- Provision for devaluation of inventory;
- Estimated useful life of fixed assets;
- Classification and provision of financial investments;
- Gross revenue ratio for construction contract;
- Estimated provision for payables;
- Estimated income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Corporation's Consolidated Financial Statements and that are assessed by the Board of Management to be reasonable under the circumstances.

**2.5 . Financial instruments***Initial recognition***Financial assets**

Financial assets of the Company including cash and cash equivalents, trade receivables and other receivables, lending, long-term and short-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

**Financial liabilities**

Financial liabilities of the Company including loans, trade payables and other payables, accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expense directly related to the issuance of those liabilities.

*Subsequent measurement after initial recognition*

Financial assets and financial liabilities are not revalued according to fair value at the end of the year because the Circular No.210/2009/TT-BTC and prevailing statutory regulations require to present Financial statements and Notes to financial instruments but not provide any relevant instruction for assessment and recognition of fair value of financial assets and financial liabilities.

**2.6 . Foreign currency transactions**

Real exchange rate when reevaluating monetary items denominated in foreign currencies at the reporting date of Interim Consolidated Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For foreign currencies deposited in bank, applying the bid rate of the bank where the Company opens its foreign currency
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising from foreign currency transactions in the year and from revaluation of remaining foreign currency monetary items at the end of the year are recorded immediately to operating results of the accounting year. Exchange

**2.7 . Cash and cash equivalents**

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

**2.8 . Financial investments**

Investments held to maturity comprise term deposits held to maturity to earn profits periodically and other held to maturity investments.

In the Consolidated Financial Statements, investments in joint ventures and associates are accounted for using historical cost method.

For the adjustment of the value of investments in joint ventures and associates from the date of investment to the beginning of the reporting year, the Corporation shall:

- For the adjustment to the income statement of previous years: make an adjustment to the undistributed profit after tax according to net adjusted accumulated amount to the beginning of the reporting year.
- For the adjustment due to the difference in revaluation of assets and the difference in foreign exchange rates, recorded in the balance sheet of the previous years: determine the adjustment to the corresponding items on the balance sheet according to net accumulated adjusted amount.

For the adjustment of the value of investments in associates arising in the year, the Corporation shall exclude the preferred dividends of other shareholders (if preferred shares are classified as Owner's capital); expected number of deductions for bonus and welfare funds of joint ventures and associates; share of profits related to transactions of joint ventures, associates contributing capital or selling assets to the Corporation before determining the Corporation's share in the profit or loss of the joint venture or associated company during the reporting year. The Corporation then adjusts the value of the investment in proportion to its share in profits and losses of joint ventures and associates and immediately recognizes it in the consolidated income statement.

Financial Statements of associates are prepared in the same period with the Group's consolidated financial statements and use the consistent accounting policies with the Group's policies. Adjustment shall be made if necessary to ensure the consistence with the Group's accounting policies.

Investments in other entities comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Provision for devaluation of investments is made at the end of the period as follows:

- With regard to investments in trading securities, the provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the provision date.
- Long-term investments (other than trading securities) without significant influence on the investee: If the investment in listed shares or the fair value of the investment is determined reliably, provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, provision shall be made based on the Financial Statements at the provision date of the investee.
- With regard to investments held to maturity, the provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

**2.9 . Receivables**

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Corporation. The receivables shall be classified into short-term receivables or long-term receivables on the consolidated financial statements according to their remaining terms at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing or estimating possible losses.

**2.10 . Inventories**

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

- Materials: The cost of inventory is calculated using weighted average method;
- Method for valuation of work in process at the end of the year: The value of work in progress is recorded for each construction project which is incomplete or revenue is unrecognised, corresponding to the amount of work in progress at the end of the year.

After initial recognition, at the time of preparing the Financial Statements, if the net realizable value of the inventory is lower than the original price, the inventory is recorded at the net realizable value. Net realizable value is estimated based on the estimated selling price of materials and construction works in the ordinary course of business less the estimated costs of completion and estimated necessary expenses for the transfer.

Inventory is recorded by perpetual method.

Provision for devaluation of inventories made at the end of the year is based on the excess of original cost of inventory over their net realizable value.

**2.11 . Construction contract**

Construction contract is a written contract agreed to build an asset or a combination of assets that are closely related or interdependent in terms of design, technology, function or usage purposes, their basic uses.

When the results of performance of a construction contract can be reliably estimated and the contractor is paid for the work performed and confirmed by the customer, then the revenues and costs associated with the construction contract is recorded corresponding to the work completed and confirmed by the customer.

When the results of performance of a construction contract cannot be reliably estimated, contract revenue is only recorded equivalent to the contract costs incurred whose recovery is relatively certain. Contract costs are only recognized when these costs are incurred during the financial year.

**2.12 . Fixed assets**

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

*Subsequent measurement after initial recognition*

The cost of finance lease fixed assets is recognised at fair value or present value of the minimum lease payments (excluding value added tax) and initial cost directly attributable to finance lease fixed assets. During the using time, finance lease fixed assets are recorded at cost, accumulated depreciation and net book value.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the Statement of income in the period in which the costs are incurred.

The historical cost of finance lease fixed assets is recognised at the lower of fair value and present value of the minimum lease payments plus any directly attributable costs incurred related with finance lease (exclusive of value added tax). During the using time, finance lease fixed assets are recorded at historical cost, accumulated depreciation and carrying amount. Finance lease fixed assets are depreciated over the lease term and charged to operating expenses in order to fully recover the capital.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	05 - 35 years
- Machineries, equipments	05 - 25 years
- Vehicles, transportation equipments	03 - 10 years
- Management equipments	03 - 10 years

*Liquidation*

Profit or loss arising from the liquidation or sales of fixed assets is determined by the difference between the net proceeds from liquidation and the remaining value of that asset and is recorded as income or expense in separate statement of income.

**2.13 . Investment properties**

Investment properties are initially recognised at historical cost.

**2.14 . Construction in progress**

Construction in progress includes fixed assets which is being purchased and constructed as at the balance sheet date and is recognised in historical cost. This includes costs of construction, installation of equipment and other direct costs. These costs will be converted to the original cost of fixed assets according to the provisional price (if there is no approved settlement) when the assets are handed over and put into use.

**2.15 . Operating lease**

Operating leases is fixed asset leasing in which a significant portion of the risks and rewards of ownership are retained by the lessor. Payments made under operating leases are charged to income statement on a straight-line basis over the period of the lease.

**2.16 . Prepaid expenses**

The expenses incurred but related to operating results of several accounting years are recorded as prepaid expenses and are allocated to the operating results in the following accounting years.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria. Prepaid expenses are allocated gradually into operating expenses on the straight-line basis.

Types of prepaid expenses include:

- Tools and supplies include assets which are possessed by the Company in an ordinary course of business, with historical cost of each asset less than 30 million dongs and therefore not eligible for recording as fixed asset under current legal regulations.
- Fixed asset repair costs are the costs of maintaining assets according to technical requirements to ensure productivity and stable operation of these assets. These costs are allocated using the straight-line basis over no more than 3 years.
- Other prepaid expenses are recorded at their historical costs and allocated on the straight-line basis within its useful life.

**2.17 . Payables**

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company.

**2.18 . Borrowings**

Borrowings shall be recorded in details in terms of lending entities, loan agreement and terms of borrowings. In case of borrowings denominated in foreign currency, they shall be recorded in details in terms of types of currency.

**2.19 . Borrowing costs**

Borrowing costs are recognized as operating expenses in the period, in which it is incurred excepting those which are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset in accordance with VAS No. 16 "Borrowing costs". Besides, regarding borrowings serving the construction of fixed assets and investment properties, the interests shall be capitalized even when the construction duration is under 12 months.

**2.20 . Accrued expenses**

Accrued expenses include payables to goods or services received from the suppliers or provided for the customers during the reporting period, but the payments for such goods or services have not been made and other payables such as interest expenses, etc. which are recorded as operating expenses of the reporting period.

The recording of accrued expenses as operating expenses during the period shall be carried out under the matching principle between revenues and expenses during the period. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

**2.21 . Provision for payables**

Provision for payables is only recognized when meeting all of the following conditions:

- The Corporation has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- Debt obligation can be estimated reliably;

Value recorded as a provision for payables is the most reasonably estimated amount required to settle the current debt obligation at the end of the accounting year. Only expenses related to the previously recorded provision for payables shall be offset by that provision for payables.

Provisions for payables are recorded as operating expenses of the accounting year. In case provision made for the previous accounting year but not used up exceeds the one made for the current accounting year, the difference is recorded as a decrease in operating expenses. The excess of the provision for payables relating to construction warranty is recorded as other income in the fiscal year.

*Provision for warranty construction*

Construction warranty provisions are set aside for construction projects that have been completed and accepted at the end of the fiscal year according to commitments with customers but must not exceed 5% of the contract value for construction projects. This is based on the characteristics of each project and the Board of Management' assessment of actual warranty time and costs.

*Provision for severance allowance*

According to the Vietnamese Labor Code, employees of the Corporation who have worked regularly for 12 months or more ("eligible employees") are entitled to severance pay. Working time to calculate severance pay is the total time the employee has actually worked for the Corporation minus the time the employee has participated in unemployment insurance according to the provisions of law and the working time. has been paid severance pay by the employer.

The employee's severance allowance is deducted each fiscal year at a rate equal to half of the average monthly salary for each year of work according to the Labor law, Social Insurance law and relevant guiding documents. . The average monthly salary used to calculate severance pay will be adjusted at the end of each reporting period according to the average salary of the last six (06) months up to the end of the fiscal year. The increase or decrease in this accrual will be recorded in the Consolidated Income Statement.

This advance is used for a one-time payment when the employee terminates the labor contract according to current regulations.

**2.22 . Owner's equity**

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Treasury shares bought before the effective date of the Securities Law 2019 (01/01/2021) are shares issued by the Corporation and bought-back by itself, but these are not cancelled and may be re-issued subsequently in accordance with the Law on Securities. Treasury shares bought after 01/01/2021 will be cancelled and adjusted to reduce equity.

Retained earnings are used to present the Corporation's operating results (profit, loss) after corporate income tax and profits appropriation or loss handling of the Corporation.

Dividends are recorded as payables on the Statement of Financial position after they have been approved by the Corporation's General Meeting of Shareholders in the annual Annual General Meeting of Shareholders Resolution. Dividends to be paid to shareholders are recognised in detailed in each entity after the announcement of dividend payment from the Board of Management and announcement of cut-off date for dividend payment of Vietnam Securities Depository and Clearing Corporation.

**2.23 . Revenue**

Revenue is recognized to extent that it is probable that the economic benefits, will flow to the Corporation and the revenue can be reliably measures regardless of when payment is being made. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and sales returns. The following specific recognition conditions must also be met when recognizing revenue:

*Revenue from sales of goods:*

- The majority of risks and benefits associated with the right to own the products or goods have been transferred to the
- The Corporation no longer holds the right to manage the goods as the goods owner, or the right to control the goods;

*Revenue from rendering of services:*

- The percentage of completion of the transaction at the Balance sheet date can be measured reliably;

*Revenue from Construction contract*

Revenue from construction contracts includes initial revenue recorded in the contract; increases and decreases when implementing the contract; bonuses; other payments obtained by the Corporation from the customer or another party to cover costs not included in the contract price, payments for which the customer will accept compensation, and payments other items if they have the potential to change revenue and can be determined reliably. Principles for recognizing revenue from construction contracts are presented in Note No. 2.11.

*Financial income*

Financial incomes include income from assets yielding interest, dividends and other financial gains by the Corporation shall be recognised when the two conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- The amount of the revenue can be measured reliably.

Dividend income shall be recognised when the Corporation's right to receive dividend is established.

**2.24 . Cost of goods sold**

Cost of goods sold and services provided is the total cost incurred for finished products, goods, supplies sold and services provided to customers during the year, recorded in accordance with revenue generated during the year and ensure compliance with the principle of caution. Cases of material loss exceeding the norm, costs exceeding normal norms, inventory loss after deducting the responsibilities of relevant collectives and individuals... are recorded sufficiently and promptly at the cost of goods sold during the year.

*Cost of Construction contract*

The cost of construction contracts is recorded on the basis of the completed work volume of construction projects and the estimated gross profit margin according to the principle of prudence and in accordance with revenue. The Board of Management under the Corporation are responsible for monitoring, updating and adjusting the gross profit ratio periodically.

**2.25 . Financial expenses**

Items recorded into financial expenses consist of:

- Borrowing costs;
- Provision for diminution in value of trading securities price; provision for losses from investment in other entities, losses

The above items are recorded by the total amount arising in the year without offsetting against financial income.

**2.26 . Corporate income tax**

## a) Deferred income tax asset

Deferred income tax asset is recognized for deductible temporary differences and the carrying forward of unused tax losses and unused tax credits.

Deferred income tax asset and Deferred income tax liability are determined based on prevailing corporate income tax rate, tax rates and tax laws enacted at the end of accounting year.

Deferred tax assets are recognized only to the extent that it is probable that taxable profit in future will be available against which the deductible temporary difference can be utilised. Deferred tax assets are recorded decrease to the extent that it is not sure taxable economic benefits will be usable.

## b) Current corporate income tax expenses and Deferred corporate income tax expenses

Current corporate income tax expenses are determined based on taxable income during the year and current corporate income tax rate.

Deferred corporate income tax expenses are determined based on deductible temporary differences, the taxable temporary differences and corporate income tax rate.

Current corporate income tax expenses and deferred corporate income tax expenses are not offset against each other.

**2.27 . Earnings per share**

Basic earnings per share are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of the Corporation (after adjusting for the bonus and welfare fund and allowance for Board of Executive) by the weighted average number of ordinary shares outstanding during the year.

The Corporation does not have shares with potential dilutive effects, the provisions on presentation of diluted earnings per share do not apply.

**2.28 . Related parties**

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Corporation's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Corporation or being under the control of the Corporation, or being under common control with the Corporation, including the Corporation's parent, subsidiaries and associates;
- Individuals, directly or indirectly, holding voting power of the Corporation that have a significant influence on the Corporation, key management personnel including directors and employees of the Corporation, the close family members of these individuals;
- Enterprises that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises.

In considering the relationship of related parties to serve for the preparation and presentation of Consolidated Financial Statements, the Corporation should consider the nature of the relationship rather than the legal form of the relationship.

**2.29 . Segment information**

A segment is a distinguishable component of the Corporation that is engaged in providing an individual or group of related products or services (business segment), or providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and returns that are different from other ones.

Segment information should be prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Corporation in order to help users of financial statements better understand and make more informed judgements about the Corporation as a whole.

**2.30 . Others information**

On 19/12/2024, the Board of Directors approved Board Resolution No. 15/NQ/SRF/HQQT regarding the transfer of 51% of the shares currently held by the Corporation in Asia Refrigeration Industry JSC ("Arico") to Hoshizaki SouthEast Asia Holdings Pte., Ltd and Hoshizaki Vietnam Corporation. As of the date of these financial statements, the transfer had been completed.
